Xiaomi Band 3
User Manual
01 Product Overview

Touchscreen
Heart Rate Monitor
Charging Port
Button

Fitness Tracker
Wristband
Charging Cable
02 Installing the Fitness Tracker

1. Insert one end of the fitness tracker into the slot from the front of the wristband.
2. Press down on the other end with your thumb to push the fitness tracker into the slot completely.
03 Wearing the Xiaomi Band

Tighten the wristband around your wrist until there is enough slack to fit about one finger, then adjust the fit until you find a comfortable position.

Note: Wearing the band too loosely may impact data collection by the heart rate monitor.
04 Pairing the Xiaomi Band with a Smartphone

1. To download the Mi Fit app, scan the QR code below or search for "Mi Fit" on the Mi App Store or Apple Store.

![QR code for the Mi Fit app](image)

2. Open the Mi Fit app, log in to your account and select “Device Pairing”, then follow the pairing instructions to proceed. When the Xiaomi Band starts to vibrate and the Bluetooth pairing notification appears on the screen, press the button to complete the pairing process.

   Note: Please make sure Bluetooth connection is activated on your mobile phone. During the pairing process, please keep the Xiaomi Band near your mobile phone.

   Note: This diagram is for reference only
05 Using the Fitness Tracker

After the Xiaomi Band is paired successfully, it will begin to track and analyze your daily activities and sleeping habits.
Touch to light up the screen. Slide up or down on the screen to browse your activity data, measure your heart rate, and access many other features.
Slide left or right on the screen to switch the display between different items.

Slide up or down to switch between different functions

Slide left/right on the screen to switch between items
06 Removing the Fitness Tracker

Remove the wristband from your wrist, hold on to each end and pull on the wristband until you see a small gap between the fitness tracker and the wristband. Use your finger to pop the fitness tracker out of its slot from the front side of the wristband.
07 Charging the Xiaomi Band

Please charge your Xiaomi Band immediately when the low power indicator is on.
• When using the Xiaomi Band to measure your heart rate, please keep your wrist steady.
• Xiaomi Band 3 has a water resistance rating of 5ATM. It can be worn in the shower, swimming pool, or while swimming near the shore. It cannot be used, however, while sitting in a sauna or diving in the ocean.
• Underwater operation is not supported for the Xiaomi Band's touch-button and touchscreen. After the Xiaomi Band has come in contact with water, please use a soft cloth to wipe away excess water from its surface before using the device.
• During daily use, please do not wear the Band too tightly around your wrist and keep its contact area dry. You should also clean the wristband regularly with water. Please stop using the product immediately and seek medical assistance if the contact area on your skin begins to show signs of redness or swelling.
09 Specifications

Name: Xiaomi Band 3  
Model: XMSH05HM  
Weight of the Fitness Tracker: 8.5 g  
Dimensions of the Fitness Tracker: 17.9 x 46.9 x 12 mm  
Wristband material: Thermoplastic elastomer  
Clasp material: Aluminum alloy  
Adjustable length: 155 - 216 mm  
Compatible with: Android 4.4/iOS 9.0 or later  
Battery capacity: 110mAh  
Battery type: Li-Ion polymer battery  
Input voltage: DC 5 V  
Input current: 250 mA (Max)  
Frequency: 2402-2480MHz  
Max output: 0dBm  
IP rating: 5ATM  
Operating temperature: -10°C ~ 50°C  
Wireless connectivity: Bluetooth 4.2 BLE
Regulatory Notice

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:

1. This device may not cause harmful interference, and
2. this device must accept any interference received, including interference that may cause undesired operation.

FCC ID: 2AC8UXMSH05HM

Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses, and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:
- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.

Please take attention that changes or modification not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.
Disposal and Recycling Information

The symbol signifies that this product has to be disposed separately from ordinary household wastes at its end of life. Please kindly be aware that this is your responsibility to dispose electronic equipment at recycling centers so as to help conserve natural resources.

This device is in compliance with the essential requirements and other relevant provisions of Directive 2014/53/EU.
